

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

9 February 1983

NOTE FOR: Executive Director

FROM : Chairman, NIC

-- On the NIC's entertainment bill, we got unjustly socked for a reception associated with a DDI function, the Third World Intelligence Seminar [redacted] because I made the mistake of agreeing to sign the invitations.

Without that item, we would still be running well ahead of last year's rate of representational expenditures. However, we have several more NIOs and are operating at a more intensive pace.

-- I am against receptions. We should be spending our representational money mainly on small lunches and dinners.
